Visual Motifs

Structural, geometric, always purposeful. Adapt to any brand palette.

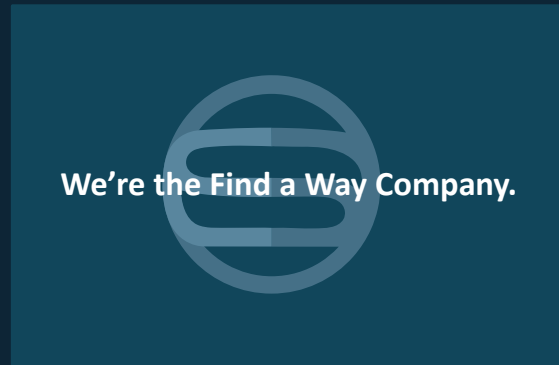

Edge Block

Thin vertical accent stripe on cards, panels, and callouts.

Layered Panels

Overlapping translucent blocks for depth and visual hierarchy.

Icon Watermark

Ghost icon behind content. Subtle, tasteful, on-brand.

All motifs adapt to any brand palette. Substitute brand primary and accent colors as needed.

Brand Treatments

For use on presentations, signage, documents, and digital assets. These are brand presence treatments, not promotional overlays.

Do's & Don'ts

DO

- Use Roboto at multiple weights for hierarchy
- Let imagery do the heavy lifting
- Use #305B7D for all primary actions and key UI
- Keep overlays and treatments on brand and minimal
- Maintain generous white space throughout
- Use approved gradient pairs only
- Scale logos proportionally at all times

DON'T

- Don't introduce fonts outside the Roboto or Poppins family
- Don't use full opacity overlays on images
- Don't mix OES palette with sub-brand palettes
- Don't apply drop shadows to text
- Don't use more than 1 overlay treatment per asset
- Don't stretch or distort the logo
- Don't use the logo on backgrounds where it disappears
